Redford Crown Glass.

THE subscribers would again beg leave to call the attention of those who contemplate building, to the Redford Crown Glass, an article well known, and extensively used in the Eastern cities, for its superior lustre and brilliancy of surface, as well as strength.

We would call attention to the annexed Extract from the Report of the Committee of the American Institute.

HENRY J. NAZRO & CO.

EXTRACT FROM THE REPORT OF THE COMMITTEE AT THE AMERICAN INSTITUTE.

"For richness of lustre and brilliancy of surface (as well as thickness and strength,) the Redford Glass is the most beautiful article of the kind that has fallen under our notice, either domestic or of foreign production, and it affords a proud specimen of the skill and enterprize of American manufacturers."

The undersigned having seen the above described Glass in a great number of first class buildings, both public and private, accord fully with the foregoing estimate of its merits, and particularly recommend it to all persons who require a strong, durable, and brilliant article.

THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large boná fide Capital safely invested in London, equally available to Americans as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1850, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Messrs. Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty-eight years experimenting upon these machines not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
Philadelphia."

May 19, 1850.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1849, and no machine ever operated in this country to do so much work, and do it as well as mine. Here this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal pledge from said Wilson, that ONE of my machines will amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

THE "MUM" CANDIDATE.

We are daily told by the friends and supporters of the Don that he has *recanted* his Anti-Bank and Land Reform heresies, and is, at heart, warmly in favor of Banks and opposed to Land Limitation! The Don himself, it is further said, gives *private* assurances of the same sort in quarters where he desires to strengthen his prospects. The information does not in the least surprise us. While wearing an Anti-Bank face in public, it is characteristic of the Don to put on a Bank face in private; while coquetting with Land Reform in the streets and public places, he cuts it dead elsewhere. But it must be obvious to every intelligent elector in the State that a candidate, who wears *two faces* on the prominent issues before the People, is not fit to be trusted by *either* party. If it be true, as his Bank friends secretly represent, that the Don has turned his coat on this question, let him for once have the manliness to come out openly and avow this change of opinion. If he has repented of Land Reform, let him so publicly declare. But in the absence of any such authoritative and open declaration on his part, the People will *look to the record,* and judge him by his acts. His public votes in the first Convention were *all against Banks and Bank paper.* If he repents of these votes, and has recanted these opinions, *out with it!* If not, let him take the consequences.

THAT CALL.—The Oshkosh *Telegraph* copies the N. Y. *Herald's* call upon the faithful democracy to choose delegates to the National Convention, and the notice that the delegates already chosen from Wisconsin and other States are decidedly out of order.

Cool—Decidedly.

The season is getting late, but still is hardly frigid enough to warrant a resort to such assertions as the following from the Green Bay *Advocate:*

> It is queer to see whigs assume to be friends, *par excellence,* to River and Harbor Improvements, when appropriations for that object have in every instance been made by the democrats.

Is it not notorious that these appropriations have been recommended by every whig President, and passed by whig votes when passed, and vetoed by Loco Foco Presidents, and defeated by the management of Cass and his friends? You cannot deceive the people in this matter! Again, says the *Advocate:*

> It is queer to hear them talk of tariffs, when the present tariff was adopted by a democratic Congress, very essentially modified from the whig standard.

Why, bless you, that is just the reason why we talk about it. If it was a whig tariff, it would encourage American labor, and build up a home market. But it is just the contrary, and enacted for the benefit of foreign labor.

NO JOKE FOR SOME FARMERS.—The Sauk County *Standard,* when it said, in reference to the action of the Hunker State Convention, "that the great *hurry* of many of the Delegates *forced* the Convention to adjourn without re-adopting the resolutions of 1849," by no manner of means intended this as a joke. On the contrary it was in sober earnest, and in its last number gravely continues thus:

> We supposed that the *hurry* of the members was the *only* cause of their neglecting to readopt the old platform, for we did not for a moment suppose that the Convention would style itself "the Democracy," and then turn to "kicking out" *those who sent them there to act in their behalf.*

The *Standard* we take it, is sufficiently well satisfied that the Hunkers had matters their own way at Madison, and only acted in obedience to orders from head-quarters in "kicking out" all the freesoilers and their friends.

THE DEPERE "DEMOCRACY."—The Green Bay *Advocate,* which made haste to publish and then point the card of the "twenty democrats" of Depere who denounced the *Advertiser* for its course in regard to Mr. UPHAM, finds itself compelled, in fair play, to give place also to the counter-card of the "twenty-eight democrats," who uphold the *Advertiser* in its course. The *Advocate* accompanies the publication with an article of which we copy the closing paragraph:

> We have published the card of those who disapprove of the course of the *Advertiser;* this week we publish that of those who approve of it; now we should like to do justice to those *who don't care a straw about it one way or the other.*

This, we suppose, is the condition of the rest of the Depere "democracy,"—a happy state of indifference to the Don and his prospects!

A First Rate Notice.

The Oshkosh *Democrat* still goes stoutly for the ticket, although, as it insists, the party creed adopted at Madison, is an insult to the people of the State. Still, it goes for the regular nominations.

It expresses the greatest disapprobation at the nomination of D. A. J. Upham for Governor, but yet goes for the regular ticket.

It devotes a column to a first rate notice of Messrs. Wood, Rogers, and Edwards, the Loco Candidates for Senator, Assemblyman, and Treasurer, in Winnebago County, pleading earnestly for votes for the "regular ticket."

It is true, says the *Democrat,* that "the candidates themselves bolted the regular ticket last fall"—that Mr. Rogers withdrew from the Waupun Convention, and another ticket was got up which nominated Mr. Wood for Assembly, and both worked against the regular candidate—that he utterly repudiates Freesoilism—that he is too "uncompromisingly Hunker" to be the *Democrat's* choice. But then, Mr. WOOD is the regular candidate—and, besides, the Democrat isn't talking to the Freesoilers at all!

Then, as to Mr. Rogers, the party candidate for Assembly, the same paper says:

> To Freesoilers we can say that his early sympathies were right. When we left Crawford Co., in October, 1848, Mr. Rogers was working with us in electioneering for the Freesoil Candidate for Congress, John W. Howe, and for the County Freesoil Candidates for Assembly. But since his residence at Winneconne, we must do him the justice to say that his Freesoil sympathies have entirely left him. No one more stiffly repudiates all Freesoilism than he does now. * * *
>
> To old line Democrats, we think this will be a sufficient guarantee of his present "*reliable*" Democracy.

Won't that do for a Freesoil paper?

Mr. Edwards, the Candidate for County Treasurer, comes in for the following endorsement:

> If any Hunker is afraid that any of his former Freesoilism attaches to him, his semi-weekly notices of ourself should be read.

We think that no one will deny that our Freesoil contemporary has fairly earned a position in the regular ranks. Some suspicious people, however, have intimated that there may be a "cat under all this meal," and we confess that we should like to see the *Democrat's* preachment to the Freesoilers on the above text.

Truth in a Nutshell.

The Oshkosh *Telegraph,* which has done the State good service in exposing the corruption and folly of its party officers and managers, having been accommodated with a county nomination, says little against the *new* ticket, but gives the present officers a parting shot, as follows:

> To every one, who is at all conversant with the present state of our State Internal affairs, *it must be evident that a more reckless, and selfish, intriguing set of men we have never had.* Office and interest with them has been everything—they have *squandered the resources of the State in useless matters—they have paddled themselves around the country seeking men to aid them in their corrupt designs* to aid them in the continuance in office, and the perpetration of their schemes, but they have been signally defeated. 'Not one is left to tell the story.' They leave their posts *covered with the disgrace of the failure of the Fox and Wisconsin River Improvement, and the irretrievable squandering of the School Fund,* and we know not what besides, when they come to pass the 'books and papers.'

MEN OF WISCONSIN! This is from a "democratic" paper! Will you give that party the opportunity to cover up its misdeeds? Will you perpetuate such a party in all offices of trust? We shall not believe it until we see it.

MORE OF THE "CLOVEN FOOT!"—The *Wisconsin* comes bravely to the help of the *Commercial,* in its attack upon Mr. FARWELL and its sneers at the Mechanics. It says that our article of yesterday, claiming for MECHANICS the same rights and privileges that all other classes enjoy, "expresses the *strongest French red-republicanism*—"one-man-is-as-good-as-another-and-better-too" "sentiments, we have ever seen yet in a paper "professing to lead a conservative party, and such "*as no true republican or rational Democrat would "desire to see promulgated!*"

Are not these developements especially rich in "democratic" organs? Who would have expected to hear the *Commercial* coolly inform MECHANICS that they had no business to "*aspire*" to the office of Governor, or the *Wisconsin* denounce our rebuke of such a sentiment as "Red-Republicanism?" Out upon these *bogus* Democrats!

A "BOLTER" ON THE REGULAR TICKET!—The *Fox River Times* (dem.) says—"CHARLEY ROBINSON'S social qualities have procured forgiveness for his defection in supporting Judge Howe and Gov. Doty."

Can it be true that the Democratic candidate for Secretary of State, has, as thus stated, himself *twice* set the example of BOLTING REGULAR NOMINATIONS! If so, it may chance that these "bloody instructions" will "return to plague the inventor." The friends of Mr. HOWE and Mr. DOTY, whom Mr. ROBINSON deserted when they were the regular nominees, "may serve him the like trick now that he is in the field!

AMUSING.—The Ft. Winnebago *River Times* don't like the manner in which the Oshkosh *Telegraph* has "copied and commented on" its exposure of the shameful mismanagement of the Loco Foco Board of Public Works, and "don't believe that its course abuse has its origin in any public spirit."

Fortunately for the interest of the State, the *Times* told the sad and sober truth about the situation of the Public Works, before having reflected on the effect upon its party.

The last "local item" from the Portage, is the following from the *Times:*

> *The Freshet Subsided.*—The flood has subsided. The breaches made in the canal are not very extensive, nor is the damage so great as indicated by appearances. From one to two thousand dollars judiciously expended, will, we believe, be sufficient to put everything in as good condition, for practical purposes, as before the flood. We do not mean by this, that such sum will replace the planking—but that planking never was properly placed, and to so place it, it was necessary that it should be drawn up on the bank. It can be taken out from its present resting place, at the same expense that it could be taken from the miserable posts and sills to which it was originally fastened. As for the embankments of peat &c., they have not been lessened in value—*their utter worthlessness,* and, perhaps, *the frauds of their construction* has only been demonstrated.

THE DEVELOPMENTS.—By the following from the Green Bay *Spectator,* there seems to be a prospect of some further developments for the benefit of the people of Northern Wisconsin:

> We have received some important information from Washington in reference to the Appropriation for this great work, which we shall embody in a History of the Fox and Wisconsin River Improvement, in our next issue. It will show up Locofoco friendship in high places, in a true and unenviable light. Stand from under!

ANOTHER HEAVY FAILURE.—A Telegraph despatch to the Albany and Buffalo papers, dated New York, October 9th says:

> We regret to learn that Wm. H. Imlay, President of the Connecticut River Bank of Hartford, and well known as a wealthy resident of that city, made an assignment of his property for the benefit of his creditors.
>
> His assets are estimated at $1,000,000 and his liabilities about $500,000, of which $350,000 are direct, and about $150,000 indirect endorsements.

☞ We copy, with extreme regret from the *Free Democrat* of last evening, the following account of a very serious accident to our friend and fellow-citizen, FRANCIS RANDALL.

> *Casualty.*—Yesterday the outside stairs on the back part of the block, corner of Wisconsin and Main streets, were removed, and last evening, Francis Randall, Esq. went into his office after dark, opened the back door, stepped out as usual, and fell some ten or twelve feet into a ditch, displacing his collar bone, and injuring himself severely by the concussion. He suffered much pain in the chest last evening, but we are happy to learn that he is much easier this morning. It is fortunate that he was not killed by the fall.

☞ The *Wisconsin* characterizes the Depere *Advertiser* as "that little *gnat* of a paper." The *Wisconsin* has had an instinctive dread of these Northern insects ever since one of the wags up there ran a pin through the editor's trousers and told him it was a musquito.

MILWAUKEE, Oct. 11th, 1851.

GENTLEMEN:—

Your kind offer of a complimentary Concert, I accept with sincere thankfulness, as a token of your good will; as a proof of your acknowledging my honest endeavours to promote and diffuse a good taste for the science of music, and not less as an evidence that you, with me, consider music to be not merely an idle pastime, or an ordinary means for satisfying personal vanities, but a great lever, which elevates man's mind above the particularities of outward life and which ennobles and renovates the moral nature. Viewed in this light music becomes desirable, as a means of improvement and as a medium of introducing its true admirers into the regions of the beautiful and sublime. To promote this object will be my task as heretofore, and you, Gentlemen, have given me a new impulse to enliven my endeavors in this behalf.

I have chosen Wednesday, the 22nd of October, for the day of the Concert, and shall take the pleasure to hand you the programme of the same for publication, in a few days.

I am, Gentlemen,
Yours very respectfully,
DR. FESSEL.

To Messrs. GEO. H. WALKER, WM. J. BELL, JACOB MAHLER, RUFUS KING, and others.

The Fire Annihilator.

The following letter is in reply to one, written to Mr. BAKER, from this City suggesting the day of the Semi-Annual Review of our Fire Department as a good time for trying the Annihilator:

GENERAL INSURANCE AGENCY OFFICE, }
RACINE, October 10, 1851. }

Gents:

Yours of the 9th instant, saying "that it was the wish of the Chief Engineer of the Fire Department of Milwaukee to have a public trial of the Fire Annihilator on the 25th instant, at the time of their General Review, and that a convenient locality should be secured for the experiment," is before me.

In reply, I will say that when in New York I ordered one of each size of the Annihilator and was assured that my order should be filled at the earliest moment possible. Ten thousand orders were ahead of mine; yet, their arrangements were such, that after the 6th instant, large numbers would be turned out daily. The probability is that my Machines will be here before that date; still I cannot say positively. If they are, I shall be happy to gratify Mr. FILLMORE, and have an experiment on that day. As soon as I ascertain, I will inform you; and if it cannot be done on that day it shall be at as early a date after that as possible.

Yours respectfully,
E. P. BAKER.

BITTER-SWEET.—The card of the 28 "true democrats" of Depere, endorsing the course of the *Advertiser* in opposing Mr. UPHAM, and the article of that paper in vindication of its course, seem to have excited the ire of the Green Bay *Advocate,* whose editor is the Loco candidate for Secretary of State, to an unusual degree. The *Advocate* says:

> Whatever it (the Advertiser) has heretofore said favorable to us, we are thankful for, and will repay in money or in any way the editor may suggest; we now ask him to take down our name from its place in his columns. *We don't want his support, nor his vote, nor his influence.* We shall feel abundantly thankful to him if he will not further degrade the profession by longer keeping at his mast-head a flag which he delights in dishonoring.

Our advices from all portions of the north lead us to believe that there is a good deal more truth than poetry in the following from the Green Bay *Spectator:*

> The truth is, the *emeute* at Depere seems to be the signal for a general *stampede,* and the supporters of the Don are few and "far between" in the Fox River country." It is as much as our neighbor can do here, to muster even half the party for the Spanish Grandee, without devoting any time to other places. The Don will be troubled some to carry *one* County on Fox River:
>
> The real friends of Wisconsin's best interests are up and doing in that quarter. We are glad to assure our friends there that there will be hard work done for the good cause in this region.

THE DON IN THE NORTH.—The Berlin *Mercury,* in the course of a faint endorsement of Mr. UPHAM'S nomination, lets out the following ugly hint as to his prospects in that part of the State:

> We should *prefer* to have seen Gov. DEWEY nominated, not that it lessens the probabilities of Mr. UPHAM'S election, for *what will be lost to him in this part of the State,* will be amply made up in the region of his residence.

It seems to be a "fixed fact" that the nomination of the Don don't go down with the Northern "democracy."

WASHINGTON MARKET, NEW YORK.—This market, which has long been an eye sore to citizens and strangers in New York, is soon to be rebuilt on an extensive scale. It is proposed that the new building shall cover the basement of the present structure, and be forty feet in height; to be constructed of the best material. There will be five entrances to the main floor, on each street, making twenty-four in all. The roof is to be of slate, resting on an iron frame, and will rise from all sides towards the centre.

HOW THEY STAND AT HOME.—The Whig candidates on the State Ticket are universally well spoken of by their respective friends and neighbors, whether democrats or Whigs. The Waukesha *Democrat,* in answer to some complimentary remarks of the Green Bay *Spectator's* about Mr. WRIGHT, our candidate for Secretary of State, says:

> We only object to two things in this extract.—We believe Mr. Wright to be *an honorable and upright man, qualified for the station for which he is named,* but "have our doubts" concerning the prospect of his carrying his own County.

A SECESSIONIST IN DESPAIR.—Senator Soule, of Louisiana, after stumping the State gives it up. He says: "He thought the South was going to be true to herself; that she would in due time redeem her pledges. But in this he had been woefully mistaken. She had yielded unhesitatingly to the demands of the North."

SECOND SENATE DISTRICT.—The Whigs of this District have nominated JAMES S. ALBAN, of Portage County, as their candidate for the Senate. This is a strong and judicious nomination—"the best" according to the Baraboo *Standard* (democratic authority) the Whigs "could have made." We hope to chronicle Mr. ALBAN'S election.

☞ Arrangements have been made to carry the mail by railroad hereafter between Albany and New York.

City Matters.

COMPLIMENTARY CONCERT TO DR. FESSEL.—We invite attention to the correspondence in this morning's paper, between a number of our fellow-citizens and Dr. FESSEL, a distinguished Member of the Musical Society. Those who have attended the Concerts of that Society need not be told that Dr. FESSEL'S Violin has been among their greatest and most constant attractions. He has freely given his time and talents to promote the success of the Society and to ensure the gratification of the public. And he has done this too, when he could ill spare an hour from the labors necessary to earn for himself and his family a simple subsistence. We trust that the Musical Public, in whose cause and for whose enjoyment Dr. FESSEL has exerted himself with so much disinterestedness, will remember his merits and his services, and render this Complimentary Concert a *substantial* token of their gratitude and good will.

U. S. DISTRICT COURT.—Judge MILLER, presiding; E. K. MILLER, Clerk; G. W. LAKIN, District Attorney; E. H. COTTON, Marshal.

The U. S. Court commenced its fall term on Monday morning, with a large docket, and is likely to continue through next week. No litigated cases have as yet been before the court—the time having been occupied in hearing motions, &c. All the lumber trespass suits have been continued over, by the direction of the Solicitor of the Treasury department. The cases of the U. S. against the old Territorial Secretaries have also been continued. In the case of the U. S. *vs.* W. L. Hungerford, for perjury, the District Attorney entered a *nolle prosequi.*

The case of P. T. Barnum *vs.* M. & M. Railroad Co, for recovery of value of bonds was discontinued, the matter having been settled by the parties.

Judge MILLER delivered yesterday morning, an elaborate opinion in case of contested jurisdiction between the State and federal authorities, which was deemed of such importance by the bar, that they requested its publication. We shall publish it in a day or two.

This morning the case of Daniel Low *vs.* Solon Johnson is down for trial.

BEEF AND PORK PACKING ESTABLISHMENT.—Messrs. T. R. & E. ROBBINS, at their extensive establishment on the Menomonee River, are now prepared to do a heavy business. We took a hasty look through their concern yesterday afternoon, and were gratified to notice their very complete arrangements for putting up all the beef and pork that they can purchase. Some twenty-five fine carcasses were hanging up at the time we were in, and a host of men and boys busily engaged in cutting up, packing, rolling out the full barrels, &c., &c. They are prepared to kill and stow away 100 head of cattle per day, besides hogs *ad libitum.*

Their establishment is well situated for their business, being far enough from the city, neither to annoy or be annoyed, and yet so placed that they can boat down their produce by the Menomonee River, with very little expense or extra trouble.

The Messrs. ROBBINS are a couple of very worthy brothers, who have been almost the pioneers in this business to any extent, and deserve the good wishes of all of our citizens for a successful issue to their enterprise, and an abundant reward for their perseverance under difficulties.

WAUSHARA CO.—The settlers of this new county, have presented the following ticket, nominated irrespective of party:

County Judge—J. S. Ewing.
Clerk of the Board—G. W. Kendall.
Clerk of the Circuit Court—A. Boardman.
District Attorney—Mr. Marshall.
Sheriff—F. E. Noyes.
County Treasurer—D. H. Robinson.
Register of Deeds—J. S. Bugh.
County Surveyor—C. N. Shumway.

FRANKLIN'S BIRTHDAY.—The Printers of Detroit were to hold a meeting on the 11th to take measures for a becoming celebration of the birthday of BENJAMIN FRANKLIN on the 17th day of January next, and they look for a ready co-operation from the members of the craft throughout the North-west.

HOMELY FACTS.

☞ Am I to be told that the policy is correct which brings from the workshops of England and lays over the coal and iron beds of Pennsylvania the manufactured railroad? (Cries of "No!" "No!") Reflect for a moment in reference to this latter branch of industry. If a ton of railroad iron costs $40, and you send that $40 out of the country, $35 or $36 out of that $40 is made up of labor. Recollect, then, that you are paying $35 or $36 out of every $40 to the laboring population of England, and taking it from the laboring population of our own land. Yet this policy is advocated by a party in Pennsylvania, and that party comes before the working people of the State and asks them to believe that it is composed of their exclusive friends.—*Speech of Gov. Johnston.*

This is a clear and forcible illustration of a very important principle. These heavy importations do not merely take money from this country; but they take money from the pockets of our working men. Not long since, nine hundred and fifty tons of foreign railroad iron was landed at New York for the Philadelphia and Wilmington Railroad Company. Over $30,000 of the cost of this iron went to pay for foreign labor. This sum expended in this country, would have given employment to a hundred men for 12 months. But it is not the policy of the Locofoco party to take care of American mechanics. That party seems to prefer foreign to home labor, and to be more disposed to encourage the industry of England and Wales than that of this country. Yet they are "Democrats" and love the People!—*Albany Evening Journal.*

DO YOU GO FOR BANKS?—If you are in favor of good sound Banks and none other, then vote for Leonard J. Farwell for Governor. If you are in favor of having other States furnish us our circulating medium, then vote for Don A. J. Upham.

If the Legislature pass a law authorizing the establishment of Banks, do you suppose Upham would sign it if he was elected Governor? No, never. Then vote for Farwell, he would. Remember that Upham was in the State Convention that formed the hard money constitution, and he is the father of the scheme. Don't vote for him.—*Racine Com. Adv.*

Syracuse, Oct. 4.

Depositions were taken before United States Commissioner Sabine yesterday, with a view to arrest of the persons concerned in the rescue of the negro Jerry.

It is stated that abundant testimony has been obtained to identify the ring leaders. A number of arrests are consequently expected.

☞ Since the triumph of the Yankees in steaming and sailing, some one suggests that Yankee-doodle-doo should be changed to Yankee-doodle-done.

Yes—and when the Yankees ascertain that all their great inventions have been copied by the English and other nations, *sans* recompense, it will be again changed to "Yankee-doodle-*diddled*." —*Cleveland Plaindealer.*

AFFAIRS OF THE SANDWICH ISLANDS.—The following paragraph is copied from the Panama *Star* of the 19th ultimo:

> Lieut. Johnston, of the U. S. Navy, arrived here on Wednesday last, *en route* for the Sandwich Islands, as bearer of despatches from the Government of the United States. The despatches of which he is the bearer refer to the controversy pending between the King of the Islands and the French Republic, the purport of which is, of course, unknown to us. It is understood, however, from the givings out at Washington, that our Government accedes to the request of the King of the Islands to interpose its friendly offices against the demands of the French Republic, and the probability is, therefore, that orders have been issued from the proper department at Washington to the commander of the U. S. Naval squadron in the Pacific to prevent the bombardment of Honolulu by the French.

FAILURE IN DETROIT.—The suspension of one of our largest produce dealers, consequent on the stoppage of his correspondent, W. O. Brown, of Buffalo, took place yesterday. Ample security, it is said, has already been been provided for his indebtedness here, and we trust ere long the gentleman in question may be in the market again as good as new."—*Detroit Free Press.*

LOSS OF THE PROPELLER MONTICELLO.—We learn from Mr. Hutchings, of the *Morton,* that the Propeller *Monticello* was lost on Lake Superior last week, about 7 miles from Copper Harbor.—She sprung a leak, which gained so rapidly that the Captain was obliged to run her ashore. She struck on a reef of rocks, and the bottom fell out. The Boat is a total loss—machinery saved. No lives lost. She had 30 tuns of copper on board —*Green Bay Spectator.*

From the New York Journal of Commerce.

Exploration of the Interior of Africa.

Washington, Aug. 14.

In a late letter I mentioned that Lieutenant M. C. Watkins of the Navy had projected a scheme for the exploration of Africa. He laid his plan before the Secretary of the Navy a few days ago. His offer is under consideration, and if the President should make no objection, I presume that it will be accepted, and the design put in execution without delay.

Lieutenant Watkins' plan is simple, and costs the government nothing. He simply asks leave of absence, on present pay, for himself, one midshipman, one engineer, and six mechanics, now belonging to the naval service, and under pay, and doing nothing. He also asks for the use of a small iron steamer, to be built under his direction —which steamer he will take out to Africa in one of the government store ships. This boat will be made in two pieces, and will be so light that she can easily be carried around the falls and other obstructions that may be met within the rivers.

Mr. Watkins does not even ask for rations for his party, as he expects to procure supplies very cheaply by traffic with the natives. Ten thousand dollars will cover all the expenses of the expedition, which the Government is called upon to pay. Mr Watkins will take a draftsman, and a naturalist, and a physician with his party.—Suitable men, who are all ready acclimated, will volunteer for the enterprise. Six or eight colored men from Liberia, who are accustomed to the natives, and have been engaged in former explorations, will complete the exploring party. One of the men, Moore, accompanied Captain Trotter, of the British Navy, in his expedition.

Mr. Watkins will first explore the St. Paul's—a very interesting river—and trace it to its source. The valley of the St. Paul's is very rich and beautiful, and will be of great importance to Liberian commerce, by reason of its valuable products.—He will next trace the Niger and Congo and other important rivers, from their mouths to their sources, and proceed to explore the vast and now unknown regions of the interior, where for aught we know, natural products of novel and rich character, new forms of civilization, and unknown races of men, may exist.

Mr. Watkins is confident, from the information which he derived in Africa, during his former visits, that he can find coal fields on the St. Paul's; and, if so, one of the chief obstacles to the establishment of steam communication between this country and Africa will be removed. This expedition will greatly promote the success of the proposed African or Ebony line of steamers; it will promote the colonization and civilization of Africa by ascertaining and making known its resources and its geography; it will open to the native tribes of Africa new subjects for commerce, of a much more profitable kind than the slave trade; and it will widen the boundaries of modern science and knowledge. Certainly such an enterprise as this will, even if attended with partial success, reflect great credit on those engaged in it, and upon our naval service and upon this country.

It is the ready objection to the project, that all the African explorers have hitherto perished in their attempts. Still, they effected something.—Lieut. Watkins says, "If we do not come back, our journals will, and there will be many officers ready to take up our work, where we leave it."

Jonathan in England.

Three months ago the London Times informed the whole world "and the rest of mankind," that the American eagle spread its wings over "a pathless solitude"—in the Crystal Palace. Now it makes this bitter and extorted confession—"Taking all things together, British and Americans have run a pretty fair tie through the trials of this wonderful season." It would be too much to ask the Times to own up to being beaten, but when it admits that England has been "hard matched," the world will know who is the winner. But while England brought *all her* well trained energies into the contest, the United States was represented by a few knights-errant in search of fame and fortune; or to use Yankee phraseology, a few who went pretty much "on their own hook." And if so small a representation of American industry and American genius has cast that of England into the shade, what must have been the result had the United States exerted itself to the extent of its power and resources? The Great Exhibition of 1851 has turned out very much like our former contests with supercilious John Bull. He has always bragged and affected contempt; but when he finds himself getting badly licked, he holds out his hand to Jonathan, acknowledges that he is *good stuff,* and a fine fellow, with all his faults.—*N. Y. Sun.*

THE ARMY.—Our army is officered by one Major General, three Brigadier Generals, twenty-three Colonels, and twenty-five Lieutenant Colonels.—There are eight Brevet Major Generals, fifteen Brevet Brigadier Generals, twenty-three Brevet Colonels, and fifty-seven Brevet Lieutenant Colonels.

In the two years past, there has died one Brigadier Gen., four Brevet Maj. Gen's, one Brevet Brig. Gen., and three Colonels. Of the officers living there were born in Va., a Maj. Gen., a Brig. Gen., and four Colonels; in New York, a Brig. Gen.; in Georgia, a Brig. Gen.; in Pa., four Colonels; in Maryland, four Colonels; in Massachusetts, two Colonels; in Vermont three; Connecticut, two Colonels; and in Louisiana, New Jersey, Delaware and Germany, each one Col.

The oldest officer in commission is Col. James B. Many, of the 3d Infantry; he entered the service as 1st Lieut. of artillery and Engineers in '98; the next in seniority of commission, is Col. John B Walbach, (Brig. Gen. by Brevet,) 3d Artillery, '99; the next is Col. Whistler, 4th Infantry, 1801. Gen. Scott, and several other Generals, were first commissioned in 1808. Col. Walbach is the oldest man in the army; he is about 85 years of age, and was born in Germany. Gen. Scott was breveted Maj. Gen. in 1814, and Gen. Gibson, the next in brevet rank in 1826; the former was but 28 years of age when he was created a Brevet Maj. Gen.; what say young men to that? The majority of the officers, and a large majority below Colonels, are graduates of West Pt.

THE HOOSICK TUNNEL.—We learn from the Franklin *Democrat,* that the contractors have commenced operations at the eastern end of the Tunnel. Ground was broken on Thursday last, near the confluence of Truesdell Brook and Deerfield River, about half a mile above Erastus Rice's. Gentlemen from Boston, and the principal places on the line of the road, were present on the occasion. We understand the proprietors of a rock cutting machine, who were present, and examined the rock of the mountain, have made proposals to the Directors for building a machine to bore the tunnel with, and putting it in operation, and all their own expense, if, in practice, it does not advance a certain number of feet in a day. The machine is of a novel and somewhat complicated character. The principle of it has been tested in Quincy granite, it is said with complete success, and the proprietors, as may be judged from their proposal, are very confident that it will work well in the tunnel.—*Troy Whig.*

THE DISUNION HUMBUG.—The old humbug of the Millerites who had fixed a day for the burning of the world was never so great a humbug as that this Union was to be dissolved by the slave holding States. The South would be the last to dissolve the Union because dissolution would be practical abolition.

In all the recent contests at the South, the so called disunionists only contended for the abstract right of a State to secede, and even on this issue they have been most signally routed. The overwhelming majority of the late Speaker, Hon. Howell Cobb, settles even this question forever in Georgia.

What shall we have to frighten the people with next? We offer a large premium for another humbug. Give us a new one, an entirely new one, Messrs. demagogues!—*Chicago Dem.*

CONSTRUCTION OF THE DEMOCRATIC PLATFORM—*A Disputed point Settled.*—Previous to the Democratic State Convention at Syracuse, Mr. Nafew, of this city, Hunker Democrat, wagered a hat with Mr. Davis, also of this city, Whig, that the Convention would endorse the Compromise measures. After it had adopted its platform and adjourned, Mr. Davis claimed the hat, on the ground that the resolutions did not approve or endorse the compromise measures. Mr. Nafew claimed that they did, and thus a dispute arose, and it was mutually agreed to leave it to Peter Cagger, Esq., Chairman of the Democratic State Committee, and George Dawson, Esq., of the *Evening Journal,* good and competent men, to decide the question. The arbitrators thus chosen have decided, that the Democratic resolutions adopted recently at the Syracuse Convention, do not approve or endorse the compromise measures of the last Congress, and accordingly awarded the hat to Mr. Davis.—*Alb. Register.*

THE SYRACUSE RIOT AND RIOTERS.—Measures have been taken, it will be seen, to ascertain the principal persons who figured at Syracuse in the rescue of the fugitive, *Jerry,* from the legal custody of the U. S. Marshal and his assistants, and who aided and abetted his escape. It would seem that some of the principal offenders are well known in Syracuse—and it is to be hoped, for the honor of that city and the State at large, that they will be dealt with to the extreme rigor of the law, and without respect of person.—[*Albany Argus.*

COOL, DECIDEDLY.—A man who was detected in Dunlap's Lumber Yard, West Side, on Thursday evening, and made an attempt to stab Mr. Dunlap with a knife was subsequently arrested, and brought before justice How, for examination, yesterday morning.

He was fined five dollars, which fine he very cooly paid and departed. The money was *counterfeit:* the matter assumed a *new* phase, and the man was re-arrested.—*Chicago Journal.*

WESTWARD TRAVEL.—Western travel over the M. C. R. R. for the past two months has increased at a very great ratio over any former year. On Wednesday the Mayflower brought up over 740 paying passengers, and the Key Stone over 300 from the Erie Road. The train of cars west, Wednesday evening, took over 800 persons.—*Detroit Advertiser.*

M. & M. RAILROAD BOND CASE.

Boston, Oct. 14.

Miss C. Hayes arrived this morning. First Concert this evening.

The celebrated MILWAUKEE BOND CASE was brought up in Court this afternoon. The Court ordered a discharge of defendants, Messrs Jaudon & Co, and Cryder from prison. McKay, principal offender, it is supposed, is designedly absent from the city.

☞ A quantity of Potash was shipped for N.Y. the other day, by Messrs. TAYLOR & PATTERSON. We believe this is the first that has been sent to market from this part of the State. It is said to warrant a much greater profit than any other product of the farmer. A large proportion of the land on the Menominee purchase is timbered, and consequently, favorable to the manufacture of this article for exportation. It would be well for the people to turn their attention to it.—*Marquette Mercury.*

THE PIONEER.—This boat, having just received her new engine, made a trial trip on Wednesday afternoon. She runs much faster, and is fitted up in good taste. She resumed her daily trips to Kaukauna on Thursday, much to the gratification of the traveling public.—*Green Bay Spectator.*

New York, Oct. 7.

The brig *Rescue* the companion of the *Advance,* in the Arctic Searching Expedition, arrived at the Navy Yard this morning. A minute account of the expedition has been prepared, which will be published.

It was offered as low as $3,06, but no large quantity was sold.—The feeling of insecurity is so great that nothing but sight paper is touched by the banks. In the produce line. A time draft for any considerable amount could not be negotiated at any of the Banks yesterday, even with the best of names.

Wheat is worth 68cts.

Beef commands from $3,50@4,00 according to quality, very choice perhaps a little more.

IN calling attention to Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla, we feel confident that we are doing a service to all who may be afflicted with scrofulous and other disorders originating in hereditary taint or from impurity of the blood. We have known instances within the sphere of our acquaintance where the most formidable distempers have been cured by the use of Dr. Guysott's Extract of Yellow Dock and Sarsaparilla alone.

It is one of the few advertised medicines that cannot be stigmatized with quackery; for the "Yellow Dock," and the "Sarsaparilla" are well known to be the most efficient (and at the same time innoxious) agents in the whole Materia Medica, and by far the best and purest preparation of them is Dr. Guysott's Yellow Dock and Sarsaparilla.

This is Strong Language,

but it is a happy fact that we can support it with an abundance of proof.

One Word More and we've Done;

However great the distance you may be from this concern, it will pay you to ride or walk to the

A big pile of Goods for a small pile of Money

LARGE! SPLENDID!!
ASTONISHING!!!

The supplies are to be weekly through the season at

No. 11 SPRING STREET,
[THEIR OLD STAND.]

THERE is no use in trying to sell Dry Goods, Groceries, Crockery, Glassware, &c., cheaper than we can sell them—it can't be done, no how. The unparalleled and great success of this store, comes from the fact that it is the best place to buy

HONEST GOODS! STRONG GOODS!

Handsome, fast-colored, and fashionable, fresh from the looms of the manufacturers of every part of the world—Europe, Asia, Africa, and America; bought at a great sacrifice, and offered to the public at nearly their own price.

Untiring industry and long experience, enables us to offer most extraordinary temptations in every kind of

DRY GOODS,

Silks, Satins, Dress Goods, Cassimeres, Broadcloths, Linens, Sheetings, Shirtings and Domestics,

By the yard, bundle, bale, box, cart load, car load, or boat load, at prices lower than any other house in the United States.

FAMILY GROCERIES,

Choice and well selected; cheaper than the cheapest. "Low prices and entire satisfaction," is our motto, and we invite all to drive down and see for themselves, and partake of bargains.

N. B. Our recent arrival of Teas are pronounced to be entirely unequalled as to strength, flavor and cheapness; and our recent purchase of

CHINA, GLASS AND EARTHENWARE,

Will be found not inferior as to quality, style and color, to any in the city—to which we invite the inspection of our patrons and the public.

Chicago Retreat for the Insane.

EDWARD MEAD, M. D., Superintendent.

THIS Institution, established in the suburbs of the City of Chicago, continues in successful operation. Since its opening, 131 patients have been admitted, a large proportion of whom have been restored to their reason. The friends of patients have always had the privilege, in addition to the usual Board of Visitors, of appointing a special Visitor. This privilege is still granted.

Applications for admission of patients to be made to Dr. Mead, Chicago.

For the satisfaction of persons not acquainted with the Institution, the following testimonials are appended:

From the Western Lancet.

[Edited by Prof. Lawson, of the Medical College of Ohio, formerly of Transylvania University.]

PRIVATE LUNATIC ASYLUM.—Professor Edward Mead of Illinois, is about opening a Private Lunatic Asylum. This highly commendable enterprise deserves, and we trust will receive the warm support of the citizens of the State of Illinois. Dr. Mead no doubt possesses all the qualifications required for discharging the duties of the highly responsible position he has assumed; and this commendation, connected with the lamentable neglect to which many persons are subjected for the want of Asylums, should enlist in his favor the most ardent spirit of encouragement.

W. B. OGDEN,
ISAAC N. ARNOLD,
ERASTUS S. WILLIAMS,
And others.

From the Chicago Journal.

The Grand Jury now in session, in addition to the duties devolving upon them in visiting places that are under the charge of the public authorities, at the polite invitation of Dr. Mead, the gentlemanly Principal of a private Lunatic Asylum he has established in our city, visited the rooms he has prepared for the reception and care of this unfortunate class of human sufferers, and cannot too highly praise the arrangement and good order there exhibited. Though extra judicial, a regard to the public good prompts us to this voluntary testimonial of the efforts of Dr. Mead, and his estimable lady, in administering to the comforts of the unfortunate.

VALUABLE REAL ESTATE AT AUCTION.

NOTICE IS HEREBY GIVEN, that the undersigned will sell at auction (unless previously sold at private sale) on Saturday, the first day of November next, at ten o'clock A. M., at the American House in the city of Milwaukee, the following tract of land, viz:—The east half of the northeast quarter of section eleven, town seven, north of range sixteen east; containing eighty acres. And the north west quarter of the south east quarter of section ten, town seven, north of range sixteen east; containing forty acres.

This land lies in the extreme part of Jefferson County, about thirty-five miles from Milwaukee, five from the village of Summit, three from Oconomowoc, and 3 or 4 from the plank road; in a rich and truly beautiful farming country. The first named tract is one of the most beautiful eightys in the State, lying high and dry; it is well timbered, has 27 acres neatly cleared and fenced a small block house, and is bounded on the south end by the Oconomowoc River. The other tract is partly dry marsh, and partly timbered land, with about eight acres cleared, and has on it a small log house, and an excellent Saw Mill, with cast iron gearing, all nearly new, which cost $1,600. This mill is erected upon the Oconomowoc River, has a plenty of water all the year, and the same dammed ample to drive a good Flouring Mill in addition, which is greatly needed in that section.

These two tracts lie upon opposite sides of the Oconomowoc River, from one-fourth to one-half a mile apart, and to any one wishing a neat farm and a mill property near, this sale affords a rare chance. These two tracts will be sold either separate or together. Sale positive, no sham bidding, and terms made known at the time of sale. Persons disposed to purchase are especially requested to call and examine the property, and may bargain with Messrs. Spence, upon the premises, or with the undersigned at their office in the city of Milwaukee.

AGENT FOR PITTSBURGH GLASS. oct2

PHILLIPS' UNITED STATES Fire Annihilator Agency.

THE undersigned respectfully announces that he is the authorized Agent for the English Patentee for the disposal of PHILLIPS' FIRE ANNIHILATORS in the Counties of Milwaukee and Racine. His agency, based upon a certain proprietary interest in the Patent, will be conducted in connection with a company of operation, to be known as

"Phillips' United States Fire Annihilator Company."

Of which Hon. ELISHA WHITTLESEY, 1st Comptroller of the United States Treasury at Washington, is the President. Hon. JOHN M. CLAYTON, of Delaware, is Counsel for the Company, and P. T. BARNUM, Esq., General Manager and Secretary.

The prices of Machines, and of Charges, are as follows:

SIZE OF MACHINE.	PRICE, INCLUDING ONE CHARGE.	PRICE OF EACH SPARE CHARGE.
No. 1	$10	$1 25
No. 2	20	1 75
No. 3	25	2 50
No. 4	30	3 00
No. 5	35	3 50

Freight from New York added to the above price.

The machines can be made to order of any size, at proportionate prices.

No. 1, (the smallest size,) is valuable for extinguishing fires in Chimnies and small apartments.

No. 2 is used with effect in larger buildings, and at the outset of a fire, and has the advantage of being the most portable of the sizes deemed available for house use.

Nos. 3, 4 and 5 are the Hand Machines of greater power. No. 3 can be carried by a lady. Nos. 4 and 5 can only be handled to advantage by a man, and are preferable for larger establishments as they may be effectually used in a direct fire.

In addition to the Hand Machine there are Street or District Annihilators, mounted upon wheels, and intended to be drawn by firemen in the usual manner. These machines are possessed of continuous power, and will emit, through a hose, a stream of vapor upon a burning building for an indefinite length of time.

The Portable Machine are so simple in construction that they are not liable to get out of order, and their application is so easy that any person may effectually use them. The chemical charges may be preserved any length of time. These Machines furnish an infallible protection against the destructive consequences of fire, as they are always ready for constant use, and contain within themselves the means of extinguishing accidental fires, as soon as discovered.

The FIRE ANNIHILATOR is made to evolve a humid vapor, and to emit it with great expansive force, so as to penetrate into, to search out and extinguish the fire. But, while the vapor emitted is destructive to fire, it is innoxious to life, and even tends to purify an atmosphere charged with smoke; nor does it injure the furniture or goods which may have escaped the action of the fire. And in this capacity the machine constitutes the best fire escape, and the means of rescuing property from the flames the world has ever known, even the smallest machine, adequate to the extinction of a fire in a house, will enable the bearer to enter the flames and rescue life and property with perfect impunity.

The merits and practical utility of the Patent Fire Annihilator have been thoroughly tested, and are acknowledged by the most eminently scientific men, and the machines have been, by command, supplied to the Royal Palaces of Queen Victoria. The Crystal Palace of the World's Fair, the mansions of the Nobility, the principal Manufactories of Great Britain and France, Theaters, Churches, and other public edifices, as well as Steamboats, Shipping, &c., and by whom is in constant use.

One of the great advantages of this invention, will be the immediate reduction it must occasion in the Rates of Insurance; and the underwriters will at once perceive that their profits must be greatly enhanced by the extraordinary diminution of destruction effected at every conflagration.

On the 13th instant a Register will be opened at the office of the Company in Milwaukee, (due notice through the Press will be given of its location,) for the reception of subscriptions for machines, and every person will be served in regular rotation, according to priority of application.—When sent by mail, the application will bear date with the day of depositing in the Post Office. The price of the machines, in all cases, to be paid at the time of subscribing and seven per cent. interest will be allowed on any time (if any) that said money remains over 20 days before the order is supplied. In this arrangement, however, a priority will be given to all City Corporations, and proprietors of large manufactories, where great risk from fire exists, and where the premium required for insurance is high; also to theaters, hotels, and large steamers, where many human lives are jeopardized. Every machine will be stamped with the name of the company; and as the company are determined to accommodate the whole public, by supplying machines of the most durable materials, and chemical charges of the most approved manufacture, at the above reasonable prices, they will prosecute, to the whole extent of the law, all attempts to imitate, counterfeit, or infringe on said patent, as well as every person who may purchase and use such infringements. All importers of Foreign Machines, or those having them in possession, will be prosecuted.

Each machine will be stamped with the name of the county or city for which they are sold, and they can be used in no other locality without a written permission from the Agency. Nor can any purchaser of a machine possess the right to sell the same in any other town, unless he has purchased the territory where said machine is to be sold. Every purchaser of a machine will receive a certificate authorizing him to use the same in the town for which it is purchased.

The subscribers having, in connection with other members of the company, made the strictest investigation and experiments, and being perfectly convinced that this wonderful invention will accomplish all that is urged in its behalf, and thus become an indispensable article for every house, manufactory, ship, or other place where fire is used or may be introduced, have accepted the above appointments, and are prepared to fulfill their duties to the public to the best of their ability.

ELISHA WHITTLESEY, Pres't.

Agent for the counties of Milwaukee & Racine.

TAKE NOTICE!

PATENT BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons it is believed to be not only the best, but the cheapest Bedstead that can be used.

In connection with its advantages, the proprietors only repeat the statements of competent persons as the result of experience, who have had the best opportunity of using it.

FACTS WILL ALWAYS SHOW

and when we say that one firm in New York have manufactured and stored over (under this Patent) TWENTY THOUSAND Bedsteads within two years, and that in Wisconsin alone

ONE HUNDRED THOUSAND

Have been made and stored, we will mention but the following, and exemplify the advantage, beauty and economy of this Patent over all others now or heretofore in use. The Bedstead has been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Bissonnet Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Mansion, do; Neil House; American House; Capitol House; U. S. Hotel; Buckeye Hotel, Columbus, O.

The patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y.; New York State Fair; State Fair, Erie county, Buffalo; Boston, Mass. Mechanics' Fair, Wayne county, O.; Stark county, O.; and numerous others.

MILLARD, HOLTON & CO., Proprietors of the above Patent, may be found at the Furniture Warehouse of J. H. Birchard, No. 21 Spring-st., 3 doors east of the American House, Milwaukee, where orders from Rights of Towns or Counties will be promptly attended to.

Persons wishing to have their bedsteads remodelled on the above plan, will please leave their names with Mr. Birchard, at the above named place, where they will meet with prompt attention. These Bottoms are considered preferable for Lounges or Trundle Beds, and will be inserted for the sum of $1.2

In conclusion, we are free to state to a discerning public, that after giving the above Bed Bottom a fair trial, they will award to us the merit of not overrating the good qualities of the "Patent Suspension Bed Bottom," and we confidently look for a liberal encouragement from a common sense public.

MILLARD, HOLTON & CO.

P. S. Any person infringing on the above Patent, will be prosecuted according to law.

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects, to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others, consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved) and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

TO MANUFACTURERS, MILLERS Machinists, and Others,

PUTTING up or running Machinery, the BOSTON BELTING COMPANY offer for sale a full assortment of their unrivalled

Metallic or Vulcanized Rubber BELTING,

Steam Engine PACKING, HYDRANT, CONDUCTING & ENGINE HOSE.

The superiority of the Belting to Leather is acknowledged by all who have used it, for the following reasons:

1.—The perfect equality of width, and thickness, which it WILL RETAIN.

2.—No degree of heat, under 300° Fahrenheit injures it; it remains flexible in any degree of cold, and is NOT AFFECTED BY MOISTURE.

3.—It is of great strength and durability, WILL NOT STRETCH, does not slip on pullies, a gain of power is obtained, and when adjusted to machinery does not require alteration, as is the case with leather or any other.

4.—It is from 30 to 40 per cent. cheaper than leather.

The following certificate from a gentleman well known in this community, is appended:

STEAM MILLS, MILWAUKEE, December 14, 1850.

I certify that I have used the METALLIC RUBBER BELTING for the past three years, for driving a Smut Mill, running at a speed of about 700 revolutions per minute. It does not slip on the pullies—will not stretch, nor does it require alteration. I consider it preferable to leather, having used both. W. S. EASTON.

Certificates from all the principal Eastern Manufacturers, Millers, Machinists, &c. &c., can be seen at the Agency.

Troy Fire Insurance Company

TROY, WALWORTH COUNTY, WIS.

CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	960
Whole amount of Property insured,	$625,651 00
Whole amount of Cash premium,	5214 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand,	4842 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and soldiers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one-half the regular cash premium in full, without a premium note. Stoves may be added or changed, out-buildings erected, if fifty feet from dwelling, and such additions and repairs made as do not increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage, not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery.

The Washington County Mutual commenced in 1836, by collecting thirty cents on $100; in 1846 they first discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100: the result of which is, by their report Jan. 1, 1850, $9000 in the treasury, and 68 million at risk, on which they will probably lose two hundred thousand, making their actual debt 191 thousand.

The Montgomery County Mutual, another example of bad management. They have been in operation a little longer than the Washington, and their report shows about the Washington. [illegible]

The cash premiums now collected by these two companies, on which they assure in future will only pay losses of the same, consequently those insuring with them now not only pay for their insurance but a large portion of these enormous debts, which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi, where they are not so well known as insurers. Such Bogus and Bogus Wildcats may publish as heretofore their fine tables, that no tax will ever be necessary, but the figures are there to prove it.

Since the above report the Montgomery have voted a tax on their premium note.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, with a debt of $191,000, the Montgomery, with a debt of $150,000, or of the Troy, with an ample cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Ayers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined seventeen years since to introduce at some future period, for the consideration of the afflicted, a preparation of sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of sarsaparilla such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and sense for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" This is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixture without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish the one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

LET THOSE WHO SUFFER PAIN TRY IT!

[illegible]

IT IS BETTER THAN ALL OTHER REMEDIES.

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is produced. Not so with Radway's Ready Relief. Its effects are instantaneous; the first dose that is taken, or the first external application, commences its great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 200,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent at Ronaco, Michigan, writes "that in our Village of 1000 inhabitants, Radway's Ready Relief has cured 100 cases of Sick and Nervous Headache [illegible] in the incredible short time of 15 minutes. It is now expelling every kind of Medicine we have here. In arresting pain and curing diseases of Nervous, Rheumatic, and of Bilious type."

LADIES' BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains, and all Aches; Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief.

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Rev. Jones of that place, "in two hours, of Chronic Rheumatism." It cured a gentleman from [illegible] who had the Rheumatism for SIX YEARS in twenty-four hours—so says the Hudson River [illegible] [illegible] If there is a person in the city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies without, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED, VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. [illegible] and is innocent as the counterpane. More powerful than all the Nervous Antidotes, mixtures of sarsaparilla, &c., in use. Its first action is to stimulate the sour [illegible] of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and [illegible] humors; to give life to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution to a healthy, robust, joyful, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES.

Should make use of Radway's Ready Relief as a lotion, its invigorating and relaxing properties soften the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies by bathing every night with Radway's Ready Relief at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hundreds of times and again, in a few hours. Taken internally, it enables the patient to expectorate freely, remove all inflammatory swelling and irritation of Bronchial organs, and by rubbing externally the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a tablespoonful of Olive Oil, it will soften the most painful itching of the skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scald [illegible] &c.

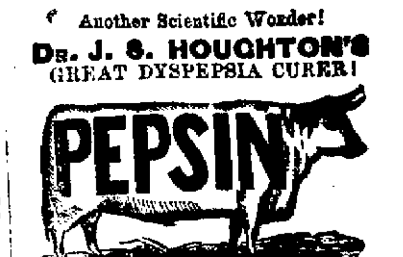
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ OBSERVE THIS.—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicines.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur."

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the invention of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $3.25; surpassing any $5 Hat sold in the city. Our Hats are all manufactured by ourselves, and [illegible] to our customers, [illegible] we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.

Orders at Wholesale filled at the lowest New York [illegible] prices.
